MONEY, BONDS AND STOCKS. A Fairly Active Ma ket in New York, with a

Generally Firmer Feeling. NEW YORK, Oct 8 .- Money on call was easy at 224 per cent., the last loan being made at 24 per cent, closing offered at 3 per cent. Prime mercantile paper, 47 264 per cent.

Sterling exchange was dull but firm at 94.83

for sixty-day bills and \$4.88 for demand. The total sales of stocks to-day were 251,024 shares, including the following: Delaware, Lack awanna & Western, 11,200; Erie, 6,700; Lake Shore, 16,538; Missouri Pacific, 8,190; Northwestern, 8,697; Norfolk & Western preferred, 3,605; Northern Pacific preferred, 8,125; Oregon Transcontinental, 5.350; Reading, 38,080; Richmond & West Point, 6,718; St. Paul, 27,450;

Union Pacific, 18,975; Western Union, 16,050. The stock market was fairly active to-day. but as to its tone was unsettled, though with a generally firmer feeling than prevailed during the latter portion of last week. There were alternate spells of weakness and strength throughout the day, and periods of activity followed duliness. London was a buver this morning, and commission houses had a number of orders to buy, which were executed. This imparted a firm tone to the opening, but the "bears" were disposed to resist the advancing tendency, and did some hammering, which forced the market off to below the opening figures, and to some stocks material losses were sustained. Upon the removal of the pressure, however, the tide was again turned, and prices recovered with promptness. New England was again a feature of the morning hours, and was strong when the rest of failed to recover much with the other stocks. St. Paul was a special object of attack by the "bears." but it was very well held and later exhibited marked strength and to-night is one of the few stocks which show marked gains. The Vanderbilt stocks were rather weak, and Lake Shore readily yielded to the first attack, while Michigan Central, after seiling down, was not again traded in. The Goula stocks, with the exception of Missouri Pacific, which shared with St. Paul the brunt of the "bear" raid of the forenoon, were firm and active. The specialties were quiet, and Lake Erie & Western preferred and Chicago & Eastern Illinois preferred were the only ones showing any feature. The opening figures were generally from to 2 per cent above last evening's rices, and further gains of a like amount were established in the early trading. while New England rose a point. But the list soon declined again, and Missouri Pacific led the downward movement, which took prices something below those of the opening. This was followed by a recovery, and the market showing a steadily decreasing volume of business,

exhibited no further feature, and finally closed quiet and firm at about the highest prices. The active list is almost invariably higher this evening, but the gains, except in St. Paul, which is up 11, and Lake Erie & Western preferred, which rose 12, are for fractions only, while Michigan Central shows a loss of 14 The railroad bond market was again quiet, with sales of only \$1,101.000, of which \$149,000 were in West Shore fours. There was no feature whatever to the trading but the tone of the dealings

was alternately heavy and firm until toward 1

P. M., when there was more force to the rallies,

and the best prices of the day were generally

was generally steady to firm, and the final changes are for small fractions, except in a few cases. Among those which are higher, Denver & Rio Grande Western assented rose 3, to 684. Government bonds were dull and steady. State bords were dull and steady. Closing

CHICAGO, Oct. 8.-A fair business was transacted in wheat to-day, and the same nervous and unsettled feeling which bas prevailed lately existed. Finctuations were frequent and violent, and considerably lower prices established than ruled at the close on Saturday. The strong closing of Saturday brought in some selling and also a fair number of buying orders, but there is no doubt that there was more disposition on the part of the local operators to realize, and the offerings were quite large, while the buying was reported to be principally by out-siders. The opening was unsettled with sales made from a trifle under to le over the closing figures of Saturday, then declined irregularly 5@5ic, rallied 2ic, fluctuated and closed about 2ic lower for December and 2ic lower for May than the closing figures of Saturday. A fair degree of activity was manifested in corn, the feeling being rather unsettled, and fluctuations were within lie range. The opening was weak, first sales being to ic under the closing prices of Saturday, after which the market sold off ic, advanced ic, reacted ic, became firmer, and sold up lic, ruled irregular. and closed with October and November about the same as Saturday. The influences governing the situation were, to a great extent, local, the operations of a prominent trader having considerable to do with the course of the market. Oats were weak under the influence of a light demand, an easier market for wheat and corn, and extected heavy receipts. Near futures show to decline. May was the active option. and closed to easier. In mess pork, moderate activity was noted early. Opening sales were at materially lower prices on the near futures, due to fair offerings and absence of demand. The ferred futures, although sympathizing to a moderate extent, were comparatively steady. A rally followed the decline and the market closed quite and steady at 20c and 25c advance on October and November, and 2 con January. A weak feeling developed in October lard, and prices declined .15e from Saturday's closing, owing to little demand. November, the year and January received the most attention. The first two named declined .25c, while January broke 12 c. Late in the day a rally occurred that carried prices to about opening figures. The market for short ribs was moderately active and prices ranged lower. Offerings of October were free and prices declined .20 a.22je; January broke .10c. The leading futures ranged as follows:

Foreign Grain Trade. LONDON, Oct. The Mark Lane Express, in its review of the British grain trade during the past week, says decreased deliveries of native wheats, combining with the bad condition of samples, has caused an advance in London of two shillings for finest wheats and one shilling for red wheats. Provincial values are also strong. The sales of English wheat during the week were 60,534 quarters, at 30s 7d against 70,-509 quarters at 28s 7d during the correronding period last year. Country flour has advanced 6d æls. Foreign wheats are irregular at an average rise of 9d in London. Spot waeat in Liverpool has advanced 4d per cental. Corn is quiet. Foreign oats are 9d better. Linseed, ex-ship, has risen Is. Twelve wheat cargoes arrived, three were withdrawn, and eight remained. To-day, wheats were very firm; English maintained an advance of 2s; foreign were 1s 22s higher, and best kinds showed a still further rise, 3s more being paid for Duluth. Flour was 2s dearer in London, the top price being raised 4s, the quotation standing at 40s. Corn, oats and linseed were firm.

INDIANAPOLIS MARKETS. The Trade of the Week Opens Briskly wit Firm Prices as a Rule. INDIANAPOLIS, Oct. 8. In nearly all departments to-day there was

good deal of activity and almost without exception firm and steady prices ruled. Especially was this true of groceries, sugars having taken on a firmer tone, and coffees being very firm at the recent advances. The New York Bulletin says of coffees: "All bearish talk upon the market for Brazils during the week has been wasted, as there was a steady upward turn to values, and buyers failing to close upon offerings at first tender generally discovered that negotiations could not by reopened except upon a higher plane of valuation. There was no great volume of really new business, but on the contrary de mand for both jobbing parcels and invoices has appeared rather inclined to shrink somewhat, as though intimidated by the growing cost, and the bouvancy was simply a natural move in step with contracts. And exactly what put contracts up seems a puzzle to many of the trade beyond the evidence that success had attended the effort to generate a scare amoug the shorts. Moderate receipts at primary points and vague hints of some great deal to take place in Rio Janeiro may have been the ground upon which engagements were taken care of, or it may be that some stimulating feature exists known only to the initiated; but information from and to reliable houses generally seems to show favorable indications for the growing crop, and to claim only temporary delay in the movement of the crop now coming forward." The produce markets were a litt e quet, we's is r t unusual on Monday, as stocks are usu lly well cleaned out on Saturday, and a little time is required to replenish them. Apples and potatoes, however, are in abundant supply and are seling low for October. Receipts of pourry liberal; prices weak. The same remark will apply to butter. Eggs, scarce and advancing. The supply of peaches and pears is meaver; prices firm. Grapes in great abundance; prices rule somewhat firmer than last week. The seed market is active at firm prices. The wool market is dull and prices downward in their tendency. The flour market is active; prices steadily advanc-ing. The bide market shows no signs of an improvement

There was a good attendance on 'Change, bidding was spirited and strong prices ruled. Offerings of both wheat and corn were light. Track bids to-day ruled as follows:

Iowa State Register. It is not too late to sow rye this fall for pas-ture next spring. Sow about one sad a half bushels to the acre. It will make better pasture next spring than rye sown in August or first of S-piember. Some recommend sowing clover seed with it this fall. But it is a doubtful and dangerous operation. The clover sown so late will not root enough to stand the winter. But sow it in February or March, then it will come forward early in the spring. Rye, when sown early this fall, begins too soon in the spring to run up to seed, rendering poor pasture. But if sown in October it makes a start about the right time in the spring for stock to keep it eropped off short, and in that way makes splendid pasture for horses, cattle and hogs. The clover will come forward rapidly, and early in June it will be a first-class pasture of mixed rye and clover, which is equally as good as any kind of tame pasture, and just as safe from bloat or scours. It is good for steers fattening for early summer market. It is good for mares and colts. It is good for cows.
